

*Building Resilience in Tropical Agro-Ecosystems*

## **BRITAE VILNIUS VISIT 2022 October 10-14**

### **1. Purpose of the event**

The 6th International Workshop on Building Agroecosystems Resilience in Asia will be conducted as part of the capacity-building activity of the project BRITAE. The project aims to develop a joint curricular module on building resilience in tropical agroecosystems in Sri Lankan Universities to increase their capacity to continually modernise, enhance the quality and relevance of education of students to the global market needs, and ensure international cooperation.

### **2. Meeting host**

A 5-day training programme is organised by the Vilnius Gediminas Technical University (VilniusTech). The event will consist of seminars, dissemination activities, and technical visits to some identified agricultural sites in Lithuania. During the visit to Lithuania, the Sri Lankan, Estonian, UK, and Lithuanian scientists and educators will be able to understand the state-of-the-art approaches in agriculture to observe good practices and opportunities for knowledge transfer.

#### **VilniusTech**

Vilnius Gediminas Technical University (VILNIUS TECH) - a prestigious European technical university, important for the progress and development of the Lithuanian State. University is attractive not only to Lithuanian students, but also to foreign students, lecturers, and scientists who seek quality studies. Technology is a tool that helps us to create the world of the future, transcending all boundaries and borders. VILNIUS TECH is ranked 701-750 in the QS World University Rankings 2023.
